## Profile

**Full Stack Developer** specializing in **high performance web apps** with React, TypeScript, and Tailwind CSS. Proven expertise in backend development using PHP, MySQL, and Laravel. Developed 15+ responsive applications with modern UI/UX and **SEO-friendly architecture** (structured data, metadata optimization). Built custom WordPress themes/plugins and integrated React frontends. Applied secure coding practices including input validation and CSRF protection. Currently advancing Computer Science degree 7th semester at Herat University.
